

Field Service Engineer – Coffee & Vending

 Walsall, West Midlands (Field-Based – Local Coverage Only)

 £35,000 + Company Vehicle

 Full-time | Permanent | 1 in 6 weekends

Build Your Career With a Business That's Going Places

At Coinadrink, we're proud to be a family-run business with deep roots in the West Midlands and a team of long-serving, committed people who genuinely care about what they do.

We cover a localised 70-mile radius from Walsall, so no nationwide travel, no excessive time away from home. Just a well-run, structured route where you can focus on doing the job properly.

Right now, we're entering an exciting period of growth, and we're looking for the right engineer to grow with us.

Why This Role Stands Out

This isn't just another Field Service job.

It's an opportunity to:

- Build a long-term career in a stable, growing business
- Be part of a company where people stay and develop
- Contribute ideas and shape how we improve and evolve
- Work in a team that values standards, ownership, and pride in the job

We're not looking for someone who just follows the process, we want someone who challenges it and makes it better.

The Role

You'll take ownership of your area, ensuring our coffee and vending machines deliver maximum uptime, reliability, and performance.

Your day-to-day will include:

- Fault finding and repairs across coffee and vending equipment
- Delivering first-time fixes and reducing repeat visits
- Proactive preventative maintenance
- Working closely with the Field Operations team to improve performance
- Bringing new ideas and smarter ways of working
- Providing excellent, professional customer service

What We're Looking For

We want someone who is:

- A strong fault-finder with electro-mechanical experience
- Experienced in coffee machines, vending, or similar equipment
- Hard-working and driven – someone who doesn't cut corners
- Comfortable working independently but thrives as part of a team
- Confident enough to challenge the norm and suggest improvements
- Committed to learning and development (including training courses)
- Looking for a long-term career, not just a job
- Proud of the quality of their work

What You'll Get

- 💰 £35,000 salary
- 🚐 Company van
- 📍 Local coverage only (approx. 70-mile radius – no nationwide travel)
- 📖 Ongoing training and development opportunities
- 🧠 Health & wellbeing programme (24/7 GP, mental health & more)
- 🛡️ Pension & Death in Service scheme
- ☕ Free hot drinks & subsidised food
- 🦃 Christmas turkey or voucher

The Commitment

This is a role for someone who wants to be part of something long-term:

- 1 in 6 weekends required
- High standards expected
- A strong work ethic is essential

In return, you'll join a business that looks after its people and gives you the platform to build a career, not just a job.

Apply Now

If you're an engineer who takes pride in your work, brings ideas to the table, and wants to grow with a business that's on the up we want to hear from you.
