CALITM2

The Future of Coffee, Today

**Where Ease Meets the
Art of Everyday Coffee**

Modern Design with **Everyday Ease**

We are proud to introduce CALI 2, a machine engineered for high performance and exceptional consistency, all in a design that makes every interaction simple.

Designed for both operators and consumers, CALI 2 blends streamlined functionality with effortless usability. Every feature is crafted to support consistent performance, intuitive interaction, and maximum operational uptime, making it the ideal choice for businesses that value efficiency, simplicity, and a premium coffee experience.

- **Designed to Stand Out:** A sleek, modern door design combined with a generous, LED-illuminated serving area creates a striking coffee-bar presence that elevates any environment.
- **Premium & Fast Drink Selection:** Large touch-capacitive buttons provide up to 30 direct selections, while the bright 5" HD colour display showcases product information clearly for a smooth, engaging user journey.
- **Exceptional Drink Quality:** Powered by advanced technology and backed by expert engineering, CALI 2 delivers consistently high-quality, barista-style beverages with precision and care.
- **Engineered for Maximum Uptime:** CALI2 is purpose-built to keep your operation running at peak performance. Quick-release components and a built-in hot-water spray head enable fast, streamlined cleaning. Every element is designed for long-lasting durability to support uninterrupted service and enhance day-to-day efficiency.

**Cleaning
Simplified**

**Premium Look
to drive loyalty**

Maximize Uptime

A high-speed photograph capturing a dynamic splash of a thick, brown liquid, likely coffee or chocolate, against a stark white background. The liquid is in mid-motion, creating a complex, flowing shape with a prominent, elongated splash extending towards the bottom center. Numerous whole, dark brown coffee beans are scattered throughout the scene, some appearing to be caught in the liquid's path or floating nearby. The beans are glossy and show the characteristic crease down the middle. Small droplets and splatters of the liquid are visible around the main splash, adding to the sense of movement and texture. The overall composition is energetic and visually appealing, emphasizing the fluidity of the liquid and the solid form of the beans.

Customers enjoy fast access to up to 30 drink selections supported by a clear 5 inch display and consistent beverage quality.

Start building a better coffee experience today. We can help you design the ideal CALI2 setup for your sites.

Technical Specifications

ENERGY	
Power Supply Voltage	220-240V
Power Supply Frequency	50/60 Hz
Energy Consumption	Instant and FB models: 125 wh/h Espresso model: 146 wh/h
Energy Saving Mode	Programmable energy saving mode
Installed Power	2.27 kW
DIMENSIONS	
H x W x D (mm)	1830 x 795 x 700
Weight (kg)	200
Door Open Dimensions	Width: 1395mm at max open position Depth: 1425mm door at 90°
PRODUCT CAPACITY	
Beans (kg)	3.5
Ground Coffee (kg)	1.5
Leaf Tea (kg)	1.7
Instant Coffee (kg)	1
Chocolate (kg)	2.7/5.8
Milk (kg)	2.5
